

Cover Letter

Dear Sir/Madam,

I am writing to express my interest in the electrical engineering entry level job as advertised. With a strong academic background in the Electrical Engineering and enthusiastic passion for innovation and technology, I am quite confident in my capability to contribute effectively to your team and assist achieve the company's objectives.

As a senior Electrical Engineering student at the University of New Mexico, I have enhanced my skills in the electrical circuit design, signal processing, programming mostly in C++ and Python, and the control systems. Throughout my academic journey, I have showcased a commitment to academic excellence and a ability for solving complex problems. I am quite eager to leverage these knowledge and skills to drive innovation and make quite meaningful contributions to your organization.

Beyond my technical competence, I bring to the table other interests and experiences, which I believe will add much value to your team. From my love for literature and simulation to my passion for outdoor activities and research, I possess the well-rounded perspective which fosters adaptability, creativity, and collaboration.

What excites me most about the opportunity at your company is the chance to work on cutting-edge projects and be part of the A team that is devoted to pushing the boundaries of technological advancement. I am drawn to your company's commitment to excellence and innovation, and I am eager to contribute my skills and expertise to help drive success.

Thank you for considering my application. I am enthusiastic about the possibility of joining your team and contributing to your company's continued growth and success. I am

available for an interview at your earliest convenience and look forward to discussing how my background, skills, and passion align with the needs of your organization.

Warm regards,

Meshal Alotaibi
